

DF-1300Lc Air Suction Folder

The DF-1300Lc Air Suction Tabletop Folder offers a high-speed solution for folding digitally printed media. The DF-1300Lc delivers professionally folded documents up to 310 sheets per minute. It comes pre-programmed with six standard fold types and utilizes both optical and ultrasonic sensors to accurately detect double feeds. Easy to use and fully automated, the DF-1300Lc is a great addition to any digital office environment.

Select from single, double, letter, gate, accordion, and half accordion folds without any adjustments required, and reprocess single folded sheets into cross folds. Standard paper sizes such as letter, legal, ledger, half letter, and half legal are automatically detected. Easily create custom fold styles with non-standard paper sizes simply by moving the fold plates via the color touchscreen panel and save it in one of the 30 job memories for future use.

The DF-1300Lc features a 625-sheet feed tray capacity, built-in sound absorbers, five speed levels, a wireless fold plate, test button, and power save mode. Includes a side air blower for feeding glossy stock, heavy stock, and large paper sizes. The DF-1300Lc Air Suction Folder is compact and fast, making it an ideal solution to handle popular applications such as brochures, menus, and much more!

Special Features

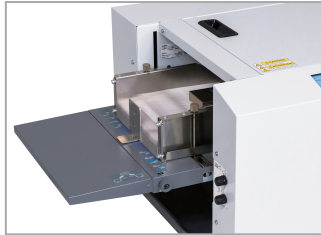

- Side air blower for feeding heavy stock and large paper sizes
- Air suction feed system ideal for digitally printed media
- High speed folding up to 310 sheets per minute
- 4.3" color LCD touchscreen for easy operation
- Six pre-programmed fold styles
- 30 job memories for custom folds
- Automatic paper size detection and fold settings
- Optical and ultrasonic sensors for double feed detection
- Built-in sound absorbers for quiet operation
- 625-sheet feed tray capacity
